

# ASBESTOS NOTIFICATION

Federal regulations require annual notification of the asbestos that is present in our buildings. This shall serve as that notice. To satisfy federal requirements, and to maintain the good condition of our asbestos containing material, an inspection is done every 6 months. Periodic surveillance reports are available for review at the Central Office, 134 Benedict Ave., during regular business hours. If you have questions, please contact the Director of Support Services at 419-660-1822.
